Hailing from Cologne, Germany, childhood friends Georg and Clemens have been displaying their love for hardware based live techno for over a decade. After jamming for an initial two months the two boys had enough material for a full set and started pouring their sweat over rave audiences. As a regular touring act, they have won over many crowds with their energetic take on techno.

Their sound although continually

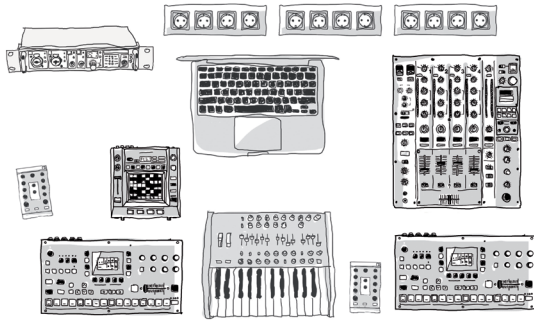

developing is rooted in Cologne's minimal techno heydays. They have a hang for infectious loops, hard chunky rhythms and subtly progressive track arcs. Moreover, their sound embodies glitchy percussion, sparse melodies and hallucinatory atmospheres, but all with the restraint of minimalism. In the studio department they have proven themselves releasing a strain of well received EPs on labels such as Areal Records, Acker Dub, Envelope, Keller Label, Feines Tier

and Sisyphon. In addition, they have contributed tracks to legions of compilations and got remix duties for industry stalwarts Jonas Woehl and Marcus Meinhardt.

With Atlantik's versatile skillset and hardworking mentality the guys on their way of creating their debut album and will celebrate their 10 year anniversary touring as a live act.
